

- Lightweight for ease of installation.
- Pull out replacement Condenser Cartridge.
- Condenser Cartridge accessible from either side.
- Easier maintenance and on-site servicing.

# HDU301 Heat Dump Unit

The HDU301 3-Pass Universal Heat Dump Unit with a removable Condenser Cartridge, now accessible from both sides, is designed for effective performance and improved design.

The HDU301 has been developed for the ease of installation, its light weight configuration is ideal for any site. Its impressive interchangeability makes it an ideal cost saving package for the quick fit replacement of any parts on site, from the Condenser which can be installed or removed from either side down to the Push-in Electrical Connections.

Built for durability and reliability, the pull out Condenser Cartridge saves you time and the cost of a complete new replacement on site. This space saving design incorporates standard trade fittings and easy key-hole access panels. With Universal Fixing Bracket to replace existing models in trade.
